App Development

OUR HISTORY

Started out 25 years ago as small design and print agency that catered to clients, by designing print ads and printing them.

Riding the internet wave in 2015 we started to build expertise in web development with the help of our design background and started to design and build websites.

Then, we soon gauged that technology was the future and developed expertise in digital marketing to help our clients find success in the digital world, also by expanding into complex web & mobile app development. There by becoming a one-stop shop solutions provider for clientele's online success!

CREATIVE DESIGN

Hubble Web assures you the best quality professional design that will definitely help your brand stand out from the crowd.

LOGO DESIGN & BRANDING

Your brand is essentially the heart and soul of your business. We provide you with comprehensive Logo Designing & Branding services to create a vision for your brand identity, while helping you capture your target audience through a clear and concise brand.

GRAPHIC & PRINT

Your brand is the first impression to the world – let us help you make it great! We take great pride in our Graphic & Print Design techniques. Our approach of creating new and innovative designs helps us strive for nothing less than perfection.

APP DESIGN

We take Mobile App Designing seriously as it is our DNA. We focus on the tiniest user interaction details, create engaging experiences, and allow pixels to originate from where they have never existed before. Our design process is interactive, energetic, and fun, and we are sure that you love working with us.

WEB DESIGN

We completely understand your every business need and visualize different possibilities of presenting your messages, services and products among customers. We believe that a call to action is only possible, if a website design is good enough to attract users and allow them to have a decent outlet to interact.

DIGITAL MARKETING

Our digital marketing services are driven not only by passion, but also a driving desire to deliver exceptional sales conversions and ROI for our clients. We invest a substantial amount of time understanding our clients' benchmarks of success and KPI's and craft smart digital strategies to gain maximum market share in the digital universe.

SEARCH ENGINE OPTIMIZATION :

We help our clients generate maximum ROI by ranking top for the right keywords on all search engines.

SOCIAL MEDIA MARKETING :

Stand out from the crowd with creative poster & video content that will help attract potential customers from social media platforms.

PAY PER CLICK :

Want to make you brand visible to your customers fast? then, a properly managed PPC can get you good traffic in a weeks time!

MAIL MARKETING :

Increase brand awareness, re-engage subscribers/customers, and customer retention, want these? then, this is the best way to do it.

WEB DEVELOPMENT

If you're looking for custom Internet applications or complex web development solutions, you've come to the right place. Our in-house and super-seasoned web development professionals are hard-core trained in today's bleeding edge web technologies. Website development projects must be planned out perfectly to ensure success. Our technical project managers and developers work closely everyday and always keep our clients' interests #1.

APP DEVELOPMENT

Side by side lets create a great App together. Our in-house and super-smart mobile app team are passionate about creating the next big app for you. Our app project managers and app developers and designers will work closely everyday and always keep client's interests at a high level. Our applications development team works side by side with our UX and UI gurus to ensure best practices in user mobile experience and make sure our client's vision is always on top of our mind.

OUR DEVELOPMENT PROCESS

FROM CONCEPT TO LAUNCH – WE’LL MAKE ANY PROJECTS PROCESS EASY AND FUN, AND YOU’LL LOVE THE RESULTS.

Discovery

Each website project starts with a kick-off meeting, where we determine the overarching goals for the website, define the target audience, and discuss desired features and functionality for the website.

Information Architecture

Our next objective is to create a sitemap that outlines the basic navigation and content organization on the website. This shows how a user will navigate the site and to ensure visitors find the information they need easily.

Content Development

We’ll work with you to craft engaging website content that will communicate your key messages and keep users moving through the website. We’ll also infuse content with key words and phrases to help optimize the website for optimal search engine rankings (SEO).

Design Concepts

Our designers get to work on creating an engaging visual environment. We always conduct our web design with your brand and target audiences & most of all, we sit discuss with you to bring out your ideas from mind to design.

Development

Once your design idea has been captured by our design team, sit back, relax and watch our team of expert developers bring your ideas to life!.

Testing

After production of the website is complete, we will release the fully functional site on a privately accessible server for beta testing. Here, we’ll test the site to make sure it’s functioning properly and make sure that it looks great on major browsers and platforms, both desktop and mobile.

Launch

It’s the moment you’ve been waiting for – your new website will be publicly accessible and the old site (if applicable) will be archived for posterity.

Monitoring & Optimizing

Now that your website is live, we can help you monitor its performance and optimize the site for the best possible search engine rankings (SEO). We will also help you optimize the site for both customer acquisition and conversion.

**WHAT
OUR
CLIENTS
SAY!**

“

It was a pleasure working with Hubble Web. The team was very responsive to my suggestions and helped me execute my idea into a reality within a few days!
